RE: AMAZON PROJECT "SEARCH INSIDE A BOOK"

Dear Jeff Bezos:

As someone attempting to build a searchable archive as to his cause, I want to compliment you on building the world's biggest searchable text digital book archive. See, "The Great Library of Amazonia," by Gary Wolf, Wired magazine, December/2003.

After being tortured, forced implanted, and denied due process by Brazil during extradition proceedings to the United States, I've established a web site offering background information and legal documentation as to same. Most of the information appears in Adobe PDF format/files due to costs and being able to allow my supporters to view court documents in facsimile.

Google, Yahoo!, and the other search engines allow only a small query into the information contained within my web site www.brazilboycott.org, due to PDF formatted files. I want my supporters and the world to be able to search everything within my web site and trace people, events, and technology into published literature.

I am requesting your assistance in reading the PDF images within my web site and converting them into a plain-text database.

Thank you in advance for your consideration in allowing my 2,000-plus acquisitive, and inquisitive, visitors per day, a more rewarding experience, with a more powerful search ability into your digital book archive.

Happy Holidays,

John Gregory Lambros

RE: BOOK - DIGITIZING INITIATIVE

Dear Michael Keller:

As someone attempting to build a searchable archive as to his cause, I want to compliment you as to your "free program to digitize any out-of-print book whose copyright holder wants to make it available to the public." See, "The Great Library of Amazonia," by Gary Wolf, Wired Magazine, December/2003.

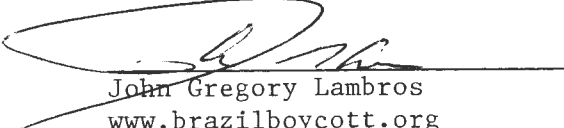

After being tortured, forced implanted, and denied due process by Brazil during extradition proceedings to the United States, I've established a web site offering background information and legal documentation as to same. Most of the information appears in Adobe PDF format/files due to costs and being able to allow my supporters to view court documents in facsimile.

Google, Yahoo!, and other search engines allow only a small query into the information contained within my web site www.brazilboycott.org, due to PDF formatted files. I want my supporters and the world to be able to search everything within my web site and trace people, events, and technology into published literature.

I am requesting your assistance in reading the PDF images within my web site and converting them into a plain-text database.

Thanking you in advance for your consideration in allowing my 2,000-plus acquisitive, and inquisitive, visitors per day, a more rewarding experience, with a more powerful search ability into various digital book archives.

Sincerely,

John Gregory Lambros

RE: INTERNET ARCHIVE "MILLION BOOK PROJECT"

Dear Brewster Kahle:

As someone attempting to build a searchable archive as to his cause, I want to compliment you as to your goal to create a digital archive of one (1) million books, in partnership with Carnegie Mellon University, the National Science Foundation, and the governments of India and China. See, "The Great Library of Amazonia," by Gary Wolf, Wired Magazine, December/2003.

After being tortured, forced implanted, and denied due process by Brazil during extradition proceedings to the United States, I've established a web site offering background information and legal documentation as to same. Most of the information appears in Adobe PDF format/files due to costs and being able to allow my supporters to view court documents in facsimile.

Google, Yahoo!, and other search engines allow only a small query into the information contained within my web site www.brazilboycott.org, due to PDF formatted files. I want my supporters and the world to be able to search everything within my web site and trace people, events, and technology into published literature.
